Proprietary Certificate

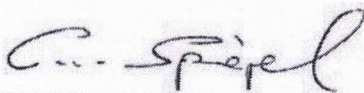

Dear Madam / Sir,

We, Eppendorf AG, Hamburg, Germany, who are a proven and reputable manufacturer of Laboratory Equipment, having factories in Germany, the United Kingdom and the United States of America, do confirm that **Eppendorf Centrifuge model minispin** has the following proprietary features:

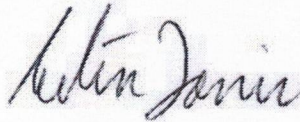

- Compact foot print, with metal rotor bowl.
- Rotor capacity of 12 x 1.5/2.0 mL and can be upgradable to use strip rotor in future.
- Maximum rpm of 13,400 and rcf 12,100 x g
- Automatic lid opening at the end of the run to prevent sample warming and to allow easy access to the sample

For the avoidance of doubt, the liability under this declaration is limited to the product itself. To the best of our knowledge, there is no instrument available in the market with identical specifications. Please feel free to check also our specifications on the website or in the manual.

Yours faithfully,
Eppendorf AG

Specifications for Microcentrifuges

1. System should be capable to accommodate 12 x 1.5/2 mL tubes
2. System should have maximum speed of 12,100 x g and 13,500 rpm
3. Rotor should be made of aluminum for better transition of temperature and should be autoclavable (121°C for 20 mins)
4. System should have rpm/rcf conversion option
5. System should possess a separate short spin key for brief spin
6. Centrifuge lid should automatically open at the end of the run to prevent sample warming and to allow easy access to samples
7. Rotor and lid should be chemically resistant
8. System should have very minimal acceleration and deceleration times
9. System should have noise levels <49 dB for quiet operation in work place
10. Instrument should be European CE Certified
11. Timer should 15s to 30 mins
